Hi You Two Love Birds!

You know I think I should really get a commission from you two Love Birds for drumming up so much trade; or possibly a cut of the ranch! But all joking aside Ann (Mrs John) Roosevelt will be coming out as soon as he makes up his mind when he is going to marry that Mc Alpin woman.

The Kennedy menage has made up as of the moment, but as soon as she finds out whom he has been running around with it will probably be breaking right out in the open again.

I've heard a lot of talk about the Bill Hearsts, but nothing more than just talk. The same goes for the Raymond Johnsons (Revlon). Then there is the Huntington Hartford broken romance, but they say Connie is leaving him alone now that Mr Money Bags is back in town. Much talk now about the Jock Whitneys too, and the Olivettis. However I've talked to them all as if I owned your spot, instead of just shilling for it! They all know who you are, and where you live.

Afraid am going to miss the Rodeo by the skin of my teeth, as I've got to go to Wash again next week for these people who pay the freight. Think we are picking up two ten million dollar govnt accts there. We've just finished making the UNICEF picture. Now the Argentinian Airlines are bickering over procedure for their next show. However thats not my headache.

Shall be turning up in my home town soon. This time with my cook-housekeeper - a very efficient woman. To think it would come to this, when all my life I've been carting pretty gals about the world. Now I have to cart my cook, in order to eat just the very things Johns Hopkins proscribes! Not as much fun as travelling with pretty young things however, but a lot better for the inner man I guess!

Am hoping somehow that my Lovely Ann can make it sometime later in the summer. She would probably stay with the Russell Thayers in Carson, unless I am working under contract, which I hope to be doing again this summer. My LIVING PAST has just past its 3 millionth sale! Wotta mess the TV people made of MAN of the WORLD!

Much war talk here again, but I've been so wrong in my dates I'm not going to mention it again. Understand it will be nuclear, if that is the only way we can stop the Red Chinese. Then I ~~sup~~ suppose we can make a Marshall Plan for China and extend our way of life another $\frac{1}{4}$ to $\frac{1}{2}$ a century.

Am dying to get into one of those pools at the HOLIDAY; this awful weather here has made for no swimming since Florida 6 weeks ago. Ten days ago it was 92 here; yesterday 54; last night 40. Today its 70; but tonight they expect it to drop to 50. No wonder I'm bedded with a cold.

I suppose you've heard all about Felice Marlin's mess. Now she's off to Mexico; appears she wrote "NY City" on their wedding certificate after they got it in Vegas and were married in the Tabernacle! So he being a lawyer produced it in court and said her Reno divorce was null and void. Now she is breaking up the home of a Naval Captain and his 7 children* in Wash, and going over to Lima, Peru to see him!

Marilyn Gillespie came in one night for one of my parties. She looks remarkably well, and pretty. I've talked with Mrs Alan Funt a couple of times, but the one graduate I see all the time is Gwynne Daine. She is leaving now on the 24th for a North Cape Cruise, on the Gripsholm, I believe. What a swell gal she is. We seem to understand one another perfectly. Runa has called me several times. I think their romance is cooling, though, so she too may be out soon, John Laidleys thing is also breaking up I understand; and he is seen a lot about the dark late spots with Jill, who married someone else!

Hope you win a lot of prizes at the Rodeo, and that your guests will get a ~~great~~kick out of it, too.

Hope you have some fun-people at your place when I get there, too. So until then, with all the best,

Yours as always,
