Dear Sir :-

Of all the poorly educated and misinformed people in our country I think you take the prize. A.B. MacDonald states you are 61 yrs of age. What a waste of years. Your logic sounds more like a chap of 12 or 13. If figures on the result of divorce evils in this country do not satisfy you, kindly get hold of a copy of Edmond Walsh's book "The Last Stand" His are true figured and may open your lazy eyes abit. Reno will have her day, but what a rep true historians will give her and her gold diggers, as yourself.

Yours very sincerely,
