Dear Harry:

During the last two days our newspapers have been flooded with stories on the effect of the new New York divorce law. Knowing of your interest I have asked my secretary to clip those appearing in the New York Daily News which, as you no doubt know, is a pretty lurid sheet. At the same time, however, from my experience it is accurate in reporting and, of course, has tremendous circulation.

Together with these newsclips I am returning to you some photos that Joan sent me on your behalf in May 1966 following a trip which you had taken to Mexico. I do not know whether these are of much use to you but at least they should be in your hands rather than mine.

I hope that all is well with you and Joan, as it is here. Chuck continues to make splendid recovery from his stroke and is now free of his wheelchair for his walking around the office and at home. Pat and I had a fine vacation in Bermuda, and hopefully she is off for three weeks with her mother in London in October.

Yours as ever,
