Last evening I called Mrs. Wallis, found her at home - so we spent some time looking at pictures of Triune Ranch and then took a ride in my old Nash. She is certainly a very nice unaffected woman. She has invited me to visit her at her New Jersey home when I go East this winter. That will afford me an entree which might possibly result in some high class divorce business coming my way. Mrs. Marshall Field II arrived in Reno a few days ago to secure a divorce. She is a very wealthy British woman - once considered one of the most beautiful women in England. Marshall Field II, the husband she seeks to divorce, is now paying one million dollars a year to his first wife and no doubt this woman will secure some such settlement out of him. George Thatcher is her Reno atty and will probably receive a few ranging from \$10,000 to \$25,000. Man O man, would I like to have a client or two like that.
