

FRIDAY, NOV. 30, 1934

This morning I drove the old Nash into the Nash agency and said to salesman Quilicy "Well here she is, give me that credit slip, \$215 on a new Nash." So now I am afoot - but can borrow a car from the agency for a few days. Mrs. Williams came in today and paid me the balance of her fee. We went over her case. At 2:30 I went to Hotel Riverside, Bobby Burns, Margaret Perry French and I climbed into her Buick roadster and drove to Carson City and on out to the State Pen. The object of the trip was to see the Warden. Bobby has an idea. He and Margaret need publicity. The plan is to stage a break down at night, He will carry Margaret into the Pen, and they will spend the night there. The press will go all over the country and the headline will be "Actor and Actress Spend Night in Jail" etc. Warden Penrose did not believe the idea so good, but was entirely willing. He told them to come back tomorrow afternoon to talk with the night man etc and decide on details. There came up a terrible wind and we drove back to Reno this evening in a storm, rain and snow and a very strong wind. These two stage people seem to be very much in love. Bobby is a nice fellow and might fit well into Margaret's stage life - I don't know so much about - but I do know that Bobby Burns is a very fortunate fellow. Margaret is a very beautiful little lady, as nice as she could be (doesn't even drink) and she has one doid million - in trust with over \$35,000 a year interest to spend. Just think what that girl will do for Bobby - Is he fortunate? - well I should say!
